

LANTERN BUILD SHEET

STUDIO BUILD: STRAPS AND CORDS ONLY

Lanterns stay packed until onsite

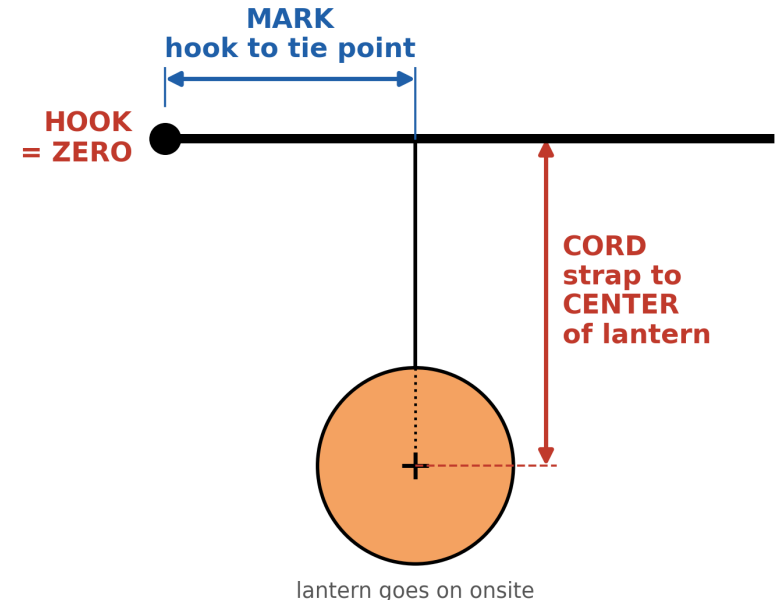

8 straps (A to H) | 5 or 6 cords on each strap | 42 cords total | one page per strap

v2 | FOR BUILD | 30 Sep 2026

READ THIS FIRST

- 1 THE HOOK IS ZERO.** Each strap has one hook. Wrap the hook in hi-vis gaff tape and write the strap letter (A to H) on the tape. Every measurement along the strap starts at the hook.
- 2 MARK = where the cord ties on.** Measure along the strap from the hook.
- 3 CORD = strap to the CENTER of the lantern.** Not the top, not the bottom. This is the finished hanging length, so add your own extra for knots and hardware.
- 4 CHECK EVERY CORD after you tie it on.** Measure from the strap to the point on the cord that will sit at the center of the lantern. Off by more than 1 inch? Fix it.
- 5 TAG EVERY CORD with its ID and lantern size.** Example: A1, 36". The ID is the strap letter plus the position counted from the hook, so A1 is nearest the hook. Lanterns go on onsite straight from these tags.
- 6 BUILD EXACTLY TO THE SHEET.** Spacing and lengths are uneven on purpose and no two straps match. Do not even them out.

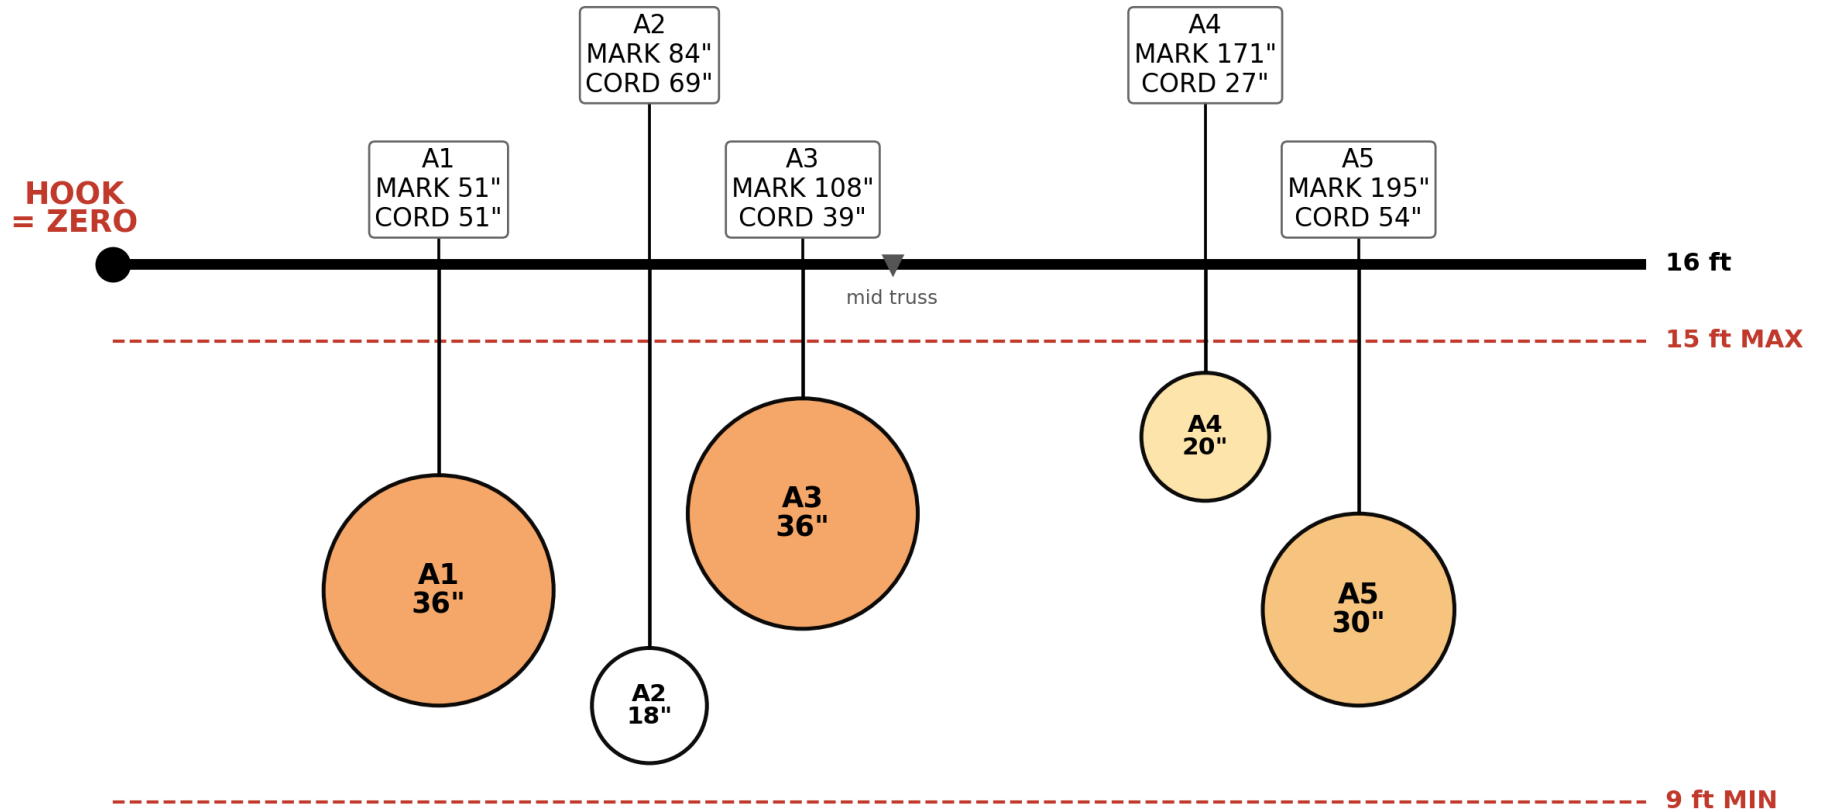

HOW TO MEASURE

WHY IT MATTERS. The straps hang 16 ft up, over a dancefloor. Built to these numbers, no lantern top is above 15 ft, no bottom is below 9 ft, and neighbors clear each other by only a few inches. A cord a few inches wrong makes lanterns touch or hang too low.

STRAP A

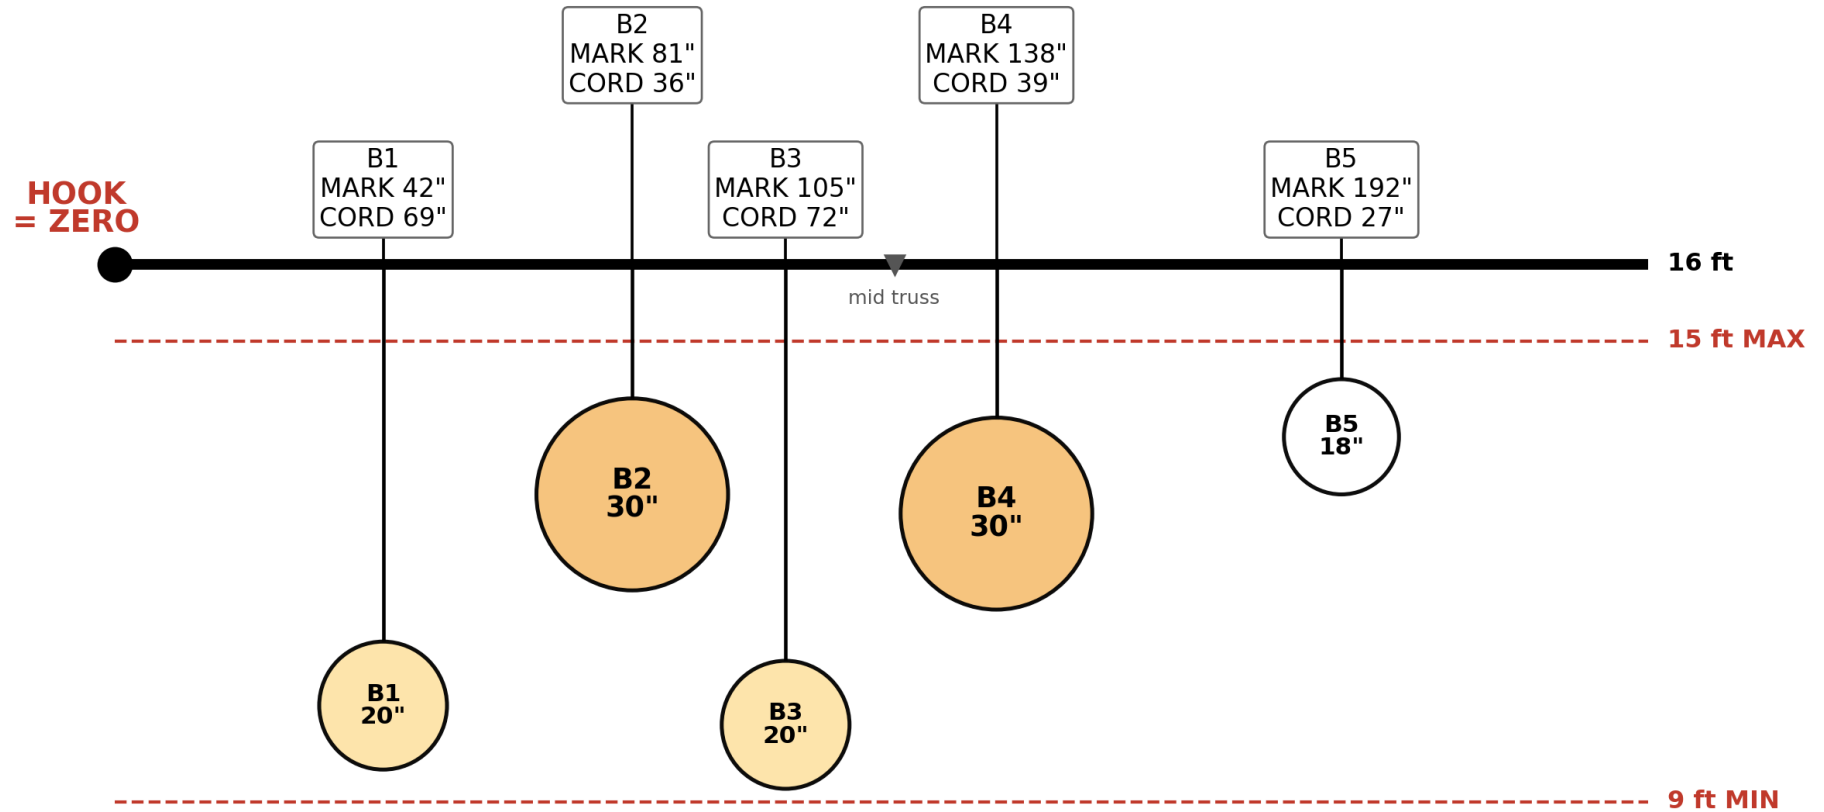

HOOK = ZERO. Hi-vis tape on the hook, marked "A".
Measure every MARK along the strap from the hook

ID	MARK from hook	CORD (strap to CENTER)	Lantern size (write on tag)	Marked	Cord tied	Length checked	Tagged
A1	51" (4' 3")	51"	36"				
A2	84" (7' 0")	69"	18"				
A3	108" (9' 0")	39"	36"				
A4	171" (14' 3")	27"	20"				
A5	195" (16' 3")	54"	30"				

STRAP B

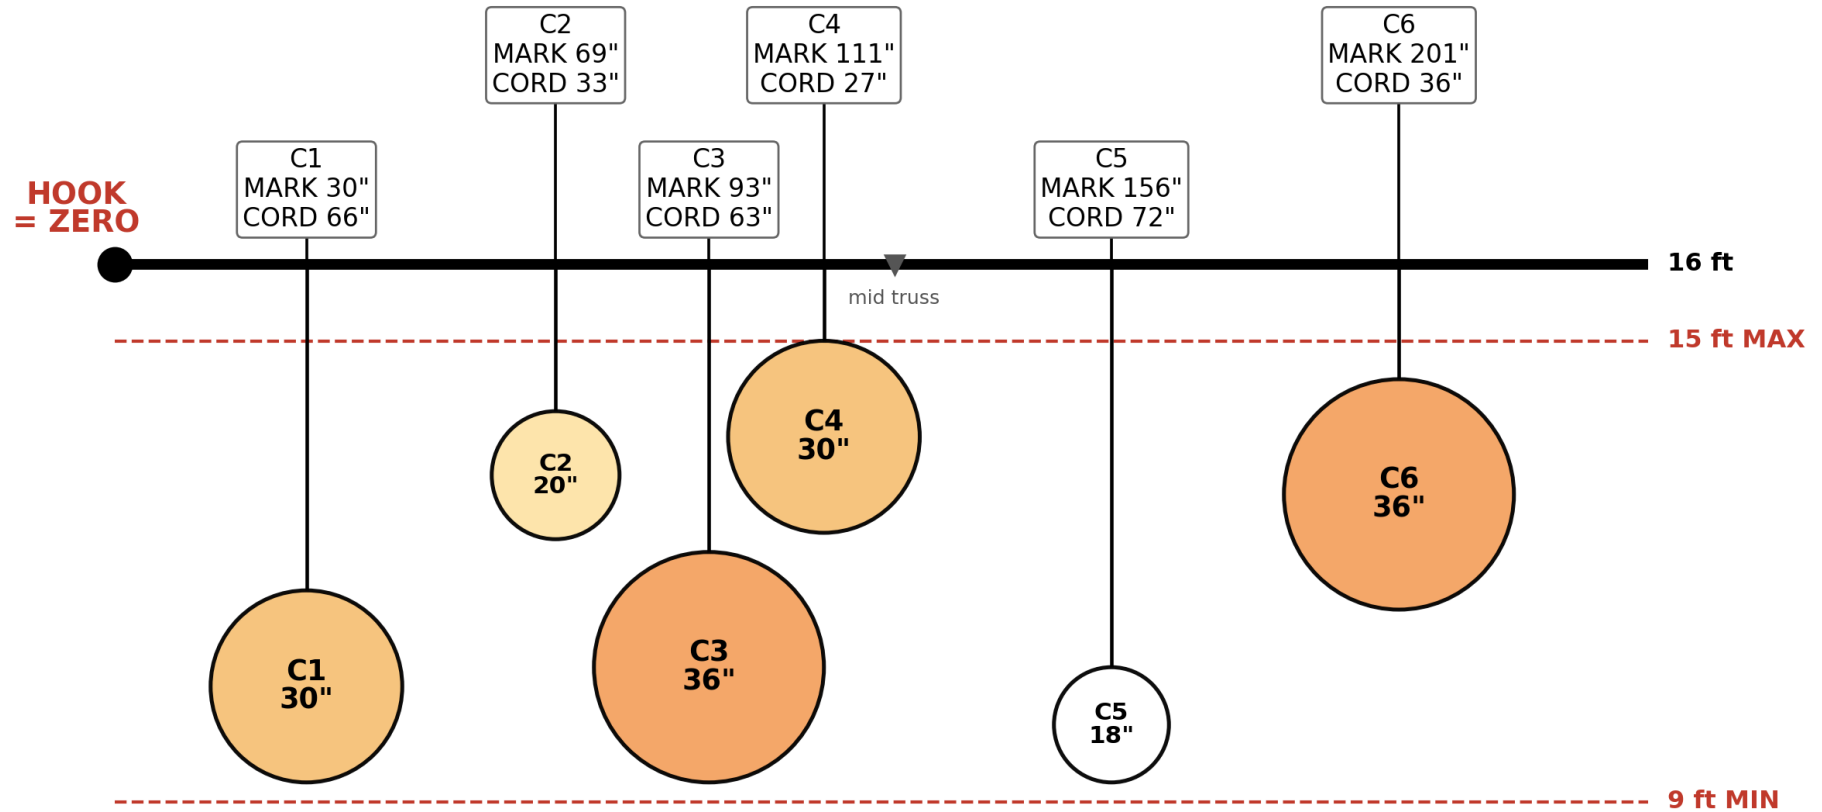

HOOK = ZERO. Hi-vis tape on the hook, marked "B".
Measure every MARK along the strap from the hook

ID	MARK from hook	CORD (strap to CENTER)	Lantern size (write on tag)	Marked	Cord tied	Length checked	Tagged
B1	42" (3' 6")	69"	20"				
B2	81" (6' 9")	36"	30"				
B3	105" (8' 9")	72"	20"				
B4	138" (11' 6")	39"	30"				
B5	192" (16' 0")	27"	18"				

STRAP C

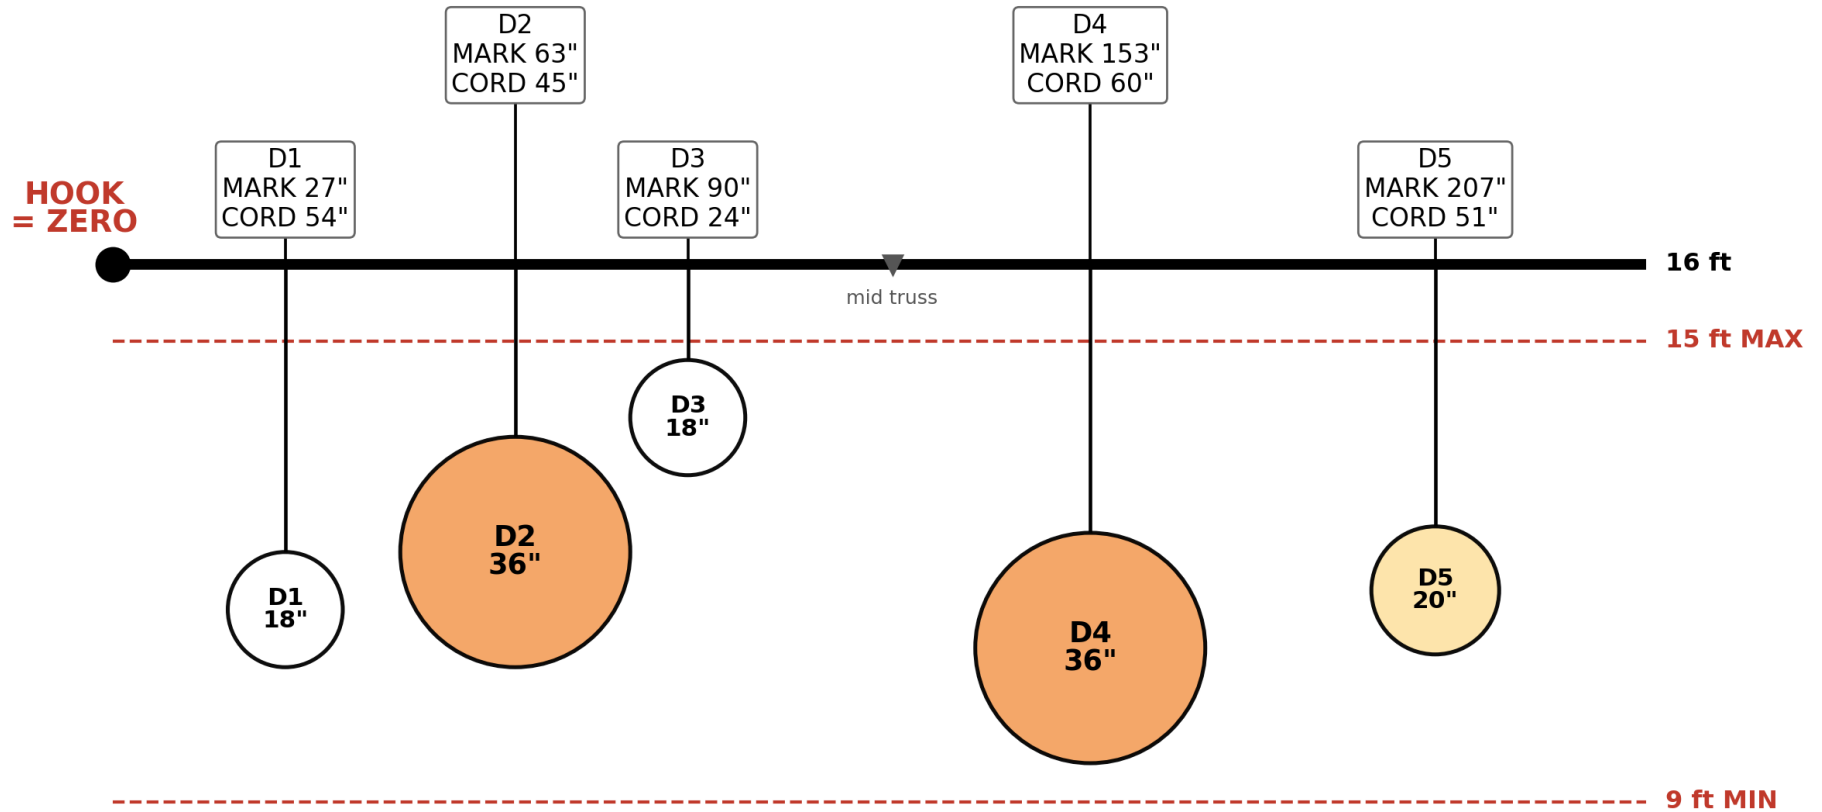

HOOK = ZERO. Hi-vis tape on the hook, marked "C".
Measure every MARK along the strap from the hook

ID	MARK from hook	CORD (strap to CENTER)	Lantern size (write on tag)	Marked	Cord tied	Length checked	Tagged
C1	30" (2' 6")	66"	30"				
C2	69" (5' 9")	33"	20"				
C3	93" (7' 9")	63"	36"				
C4	111" (9' 3")	27"	30"				
C5	156" (13' 0")	72"	18"				
C6	201" (16' 9")	36"	36"				

STRAP D

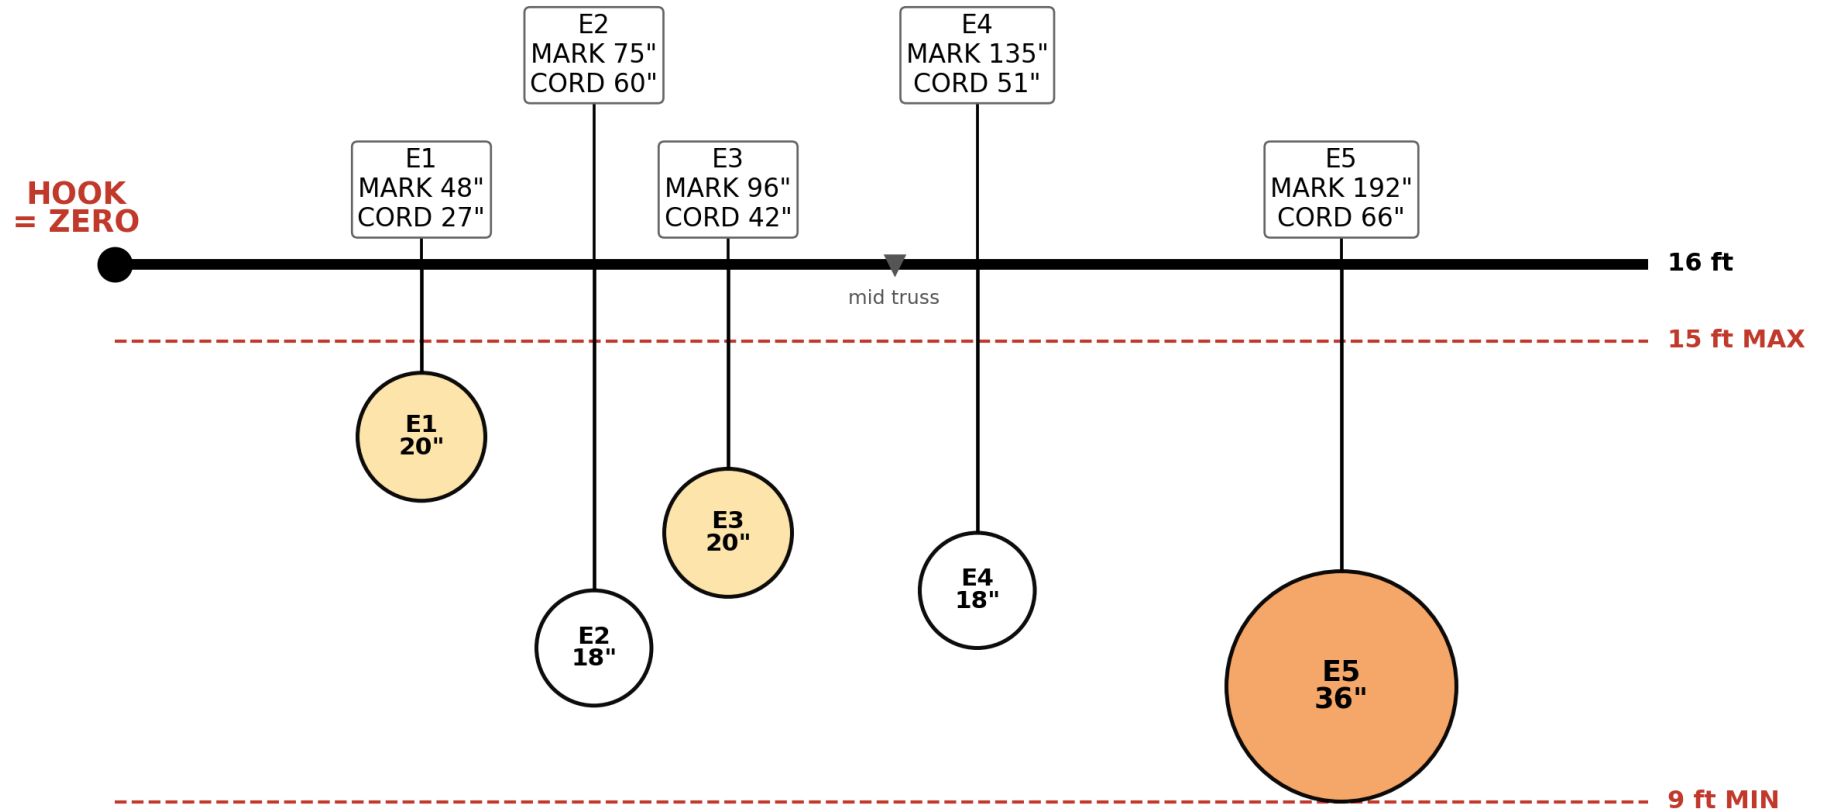

HOOK = ZERO. Hi-vis tape on the hook, marked "D".
Measure every MARK along the strap from the hook

ID	MARK from hook	CORD (strap to CENTER)	Lantern size (write on tag)	Marked	Cord tied	Length checked	Tagged
D1	27" (2' 3")	54"	18"				
D2	63" (5' 3")	45"	36"				
D3	90" (7' 6")	24"	18"				
D4	153" (12' 9")	60"	36"				
D5	207" (17' 3")	51"	20"				

STRAP E

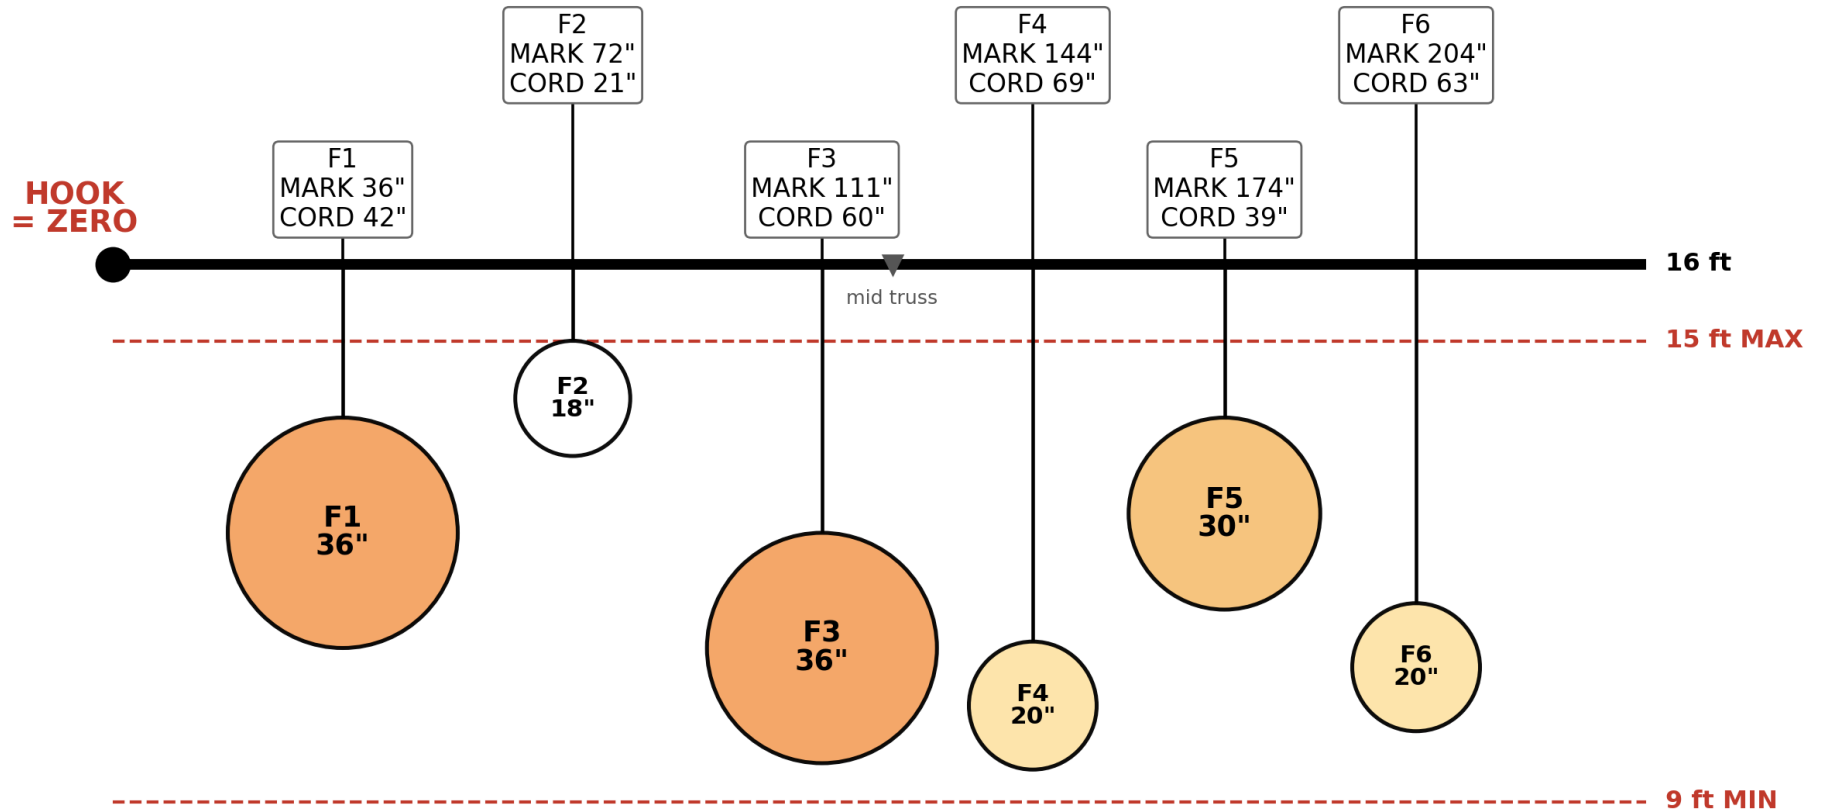

HOOK = ZERO. Hi-vis tape on the hook, marked "E".
Measure every MARK along the strap from the hook

ID	MARK from hook	CORD (strap to CENTER)	Lantern size (write on tag)	Marked	Cord tied	Length checked	Tagged
E1	48" (4' 0")	27"	20"				
E2	75" (6' 3")	60"	18"				
E3	96" (8' 0")	42"	20"				
E4	135" (11' 3")	51"	18"				
E5	192" (16' 0")	66"	36"				

STRAP F

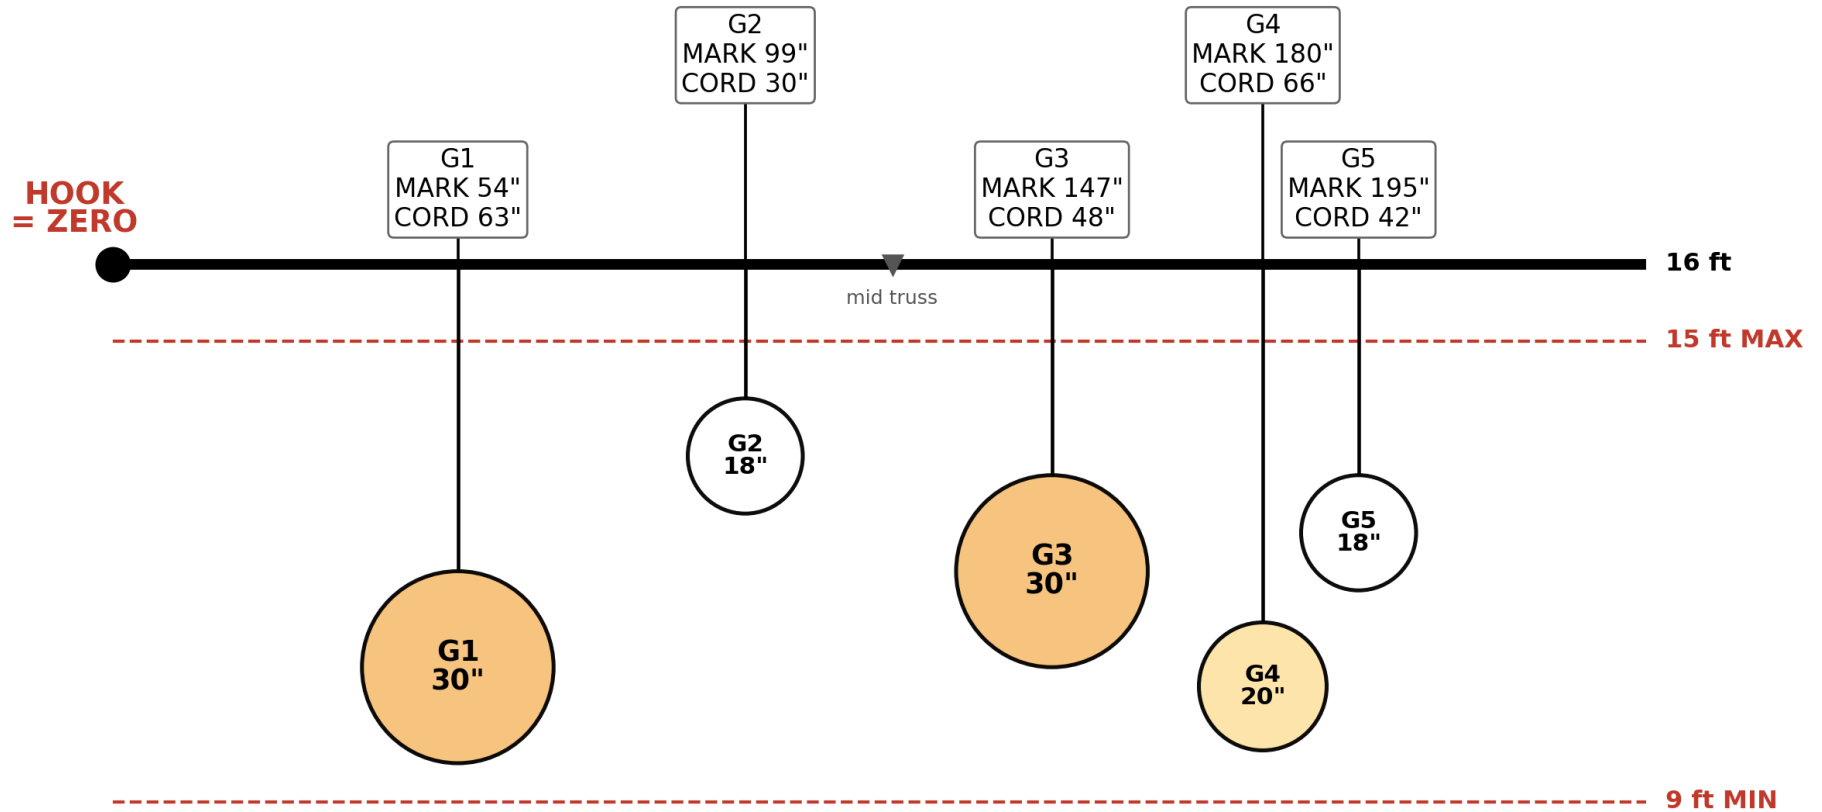

HOOK = ZERO. Hi-vis tape on the hook, marked "F".
Measure every MARK along the strap from the hook

ID	MARK from hook	CORD (strap to CENTER)	Lantern size (write on tag)	Marked	Cord tied	Length checked	Tagged
F1	36" (3' 0")	42"	36"				
F2	72" (6' 0")	21"	18"				
F3	111" (9' 3")	60"	36"				
F4	144" (12' 0")	69"	20"				
F5	174" (14' 6")	39"	30"				
F6	204" (17' 0")	63"	20"				

STRAP G

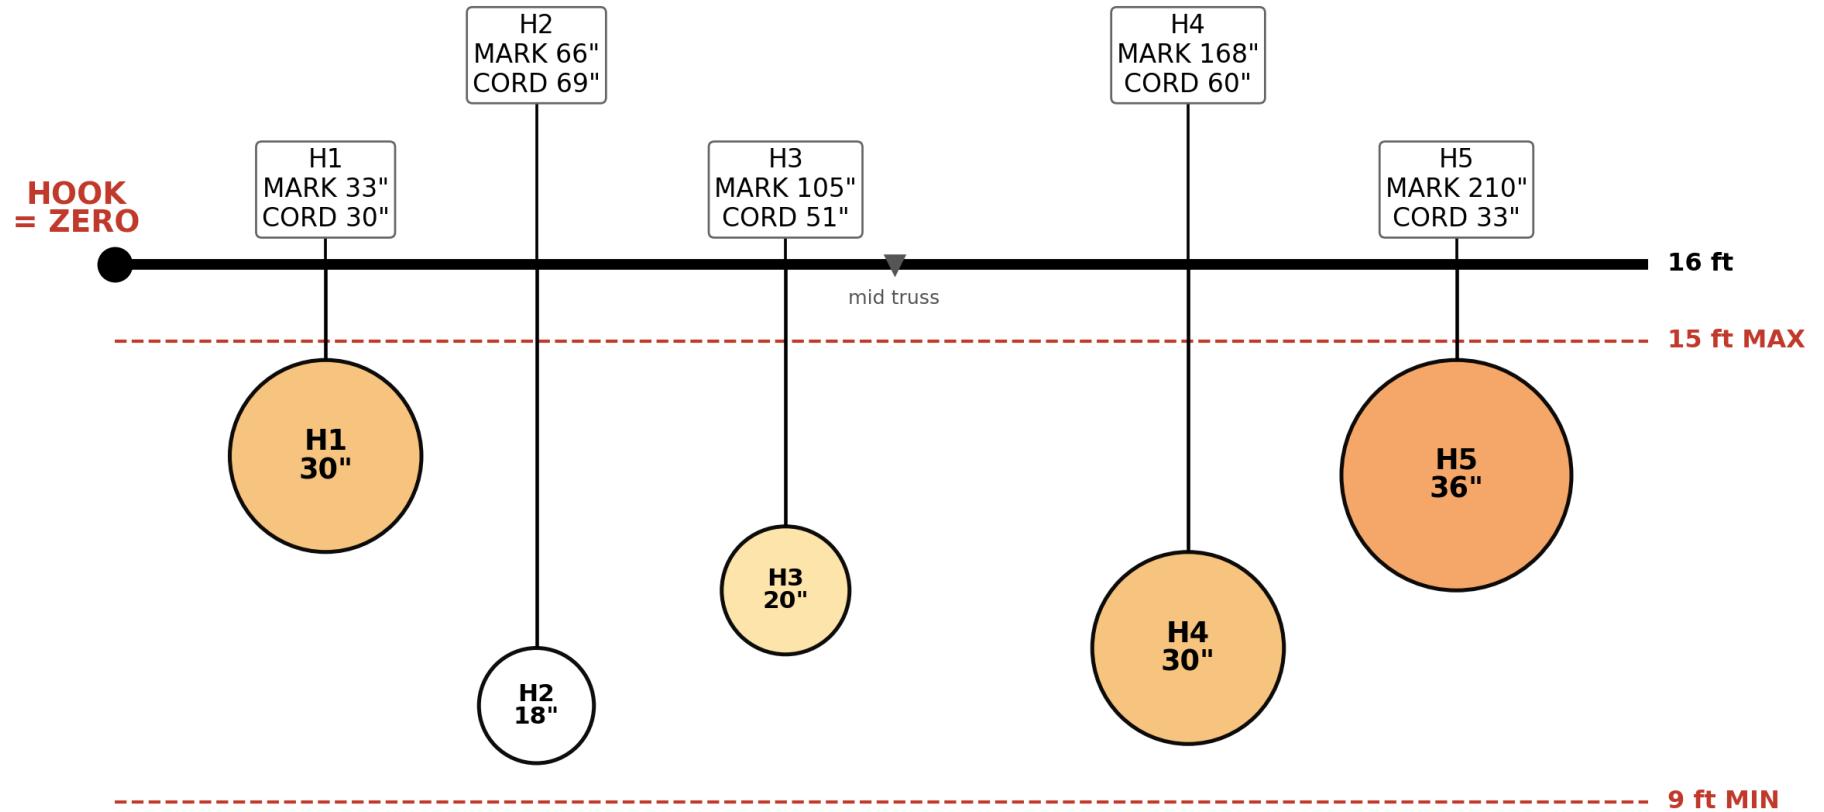

HOOK = ZERO. Hi-vis tape on the hook, marked "G".
Measure every MARK along the strap from the hook

ID	MARK from hook	CORD (strap to CENTER)	Lantern size (write on tag)	Marked	Cord tied	Length checked	Tagged
G1	54" (4' 6")	63"	30"				
G2	99" (8' 3")	30"	18"				
G3	147" (12' 3")	48"	30"				
G4	180" (15' 0")	66"	20"				
G5	195" (16' 3")	42"	18"				

STRAP H

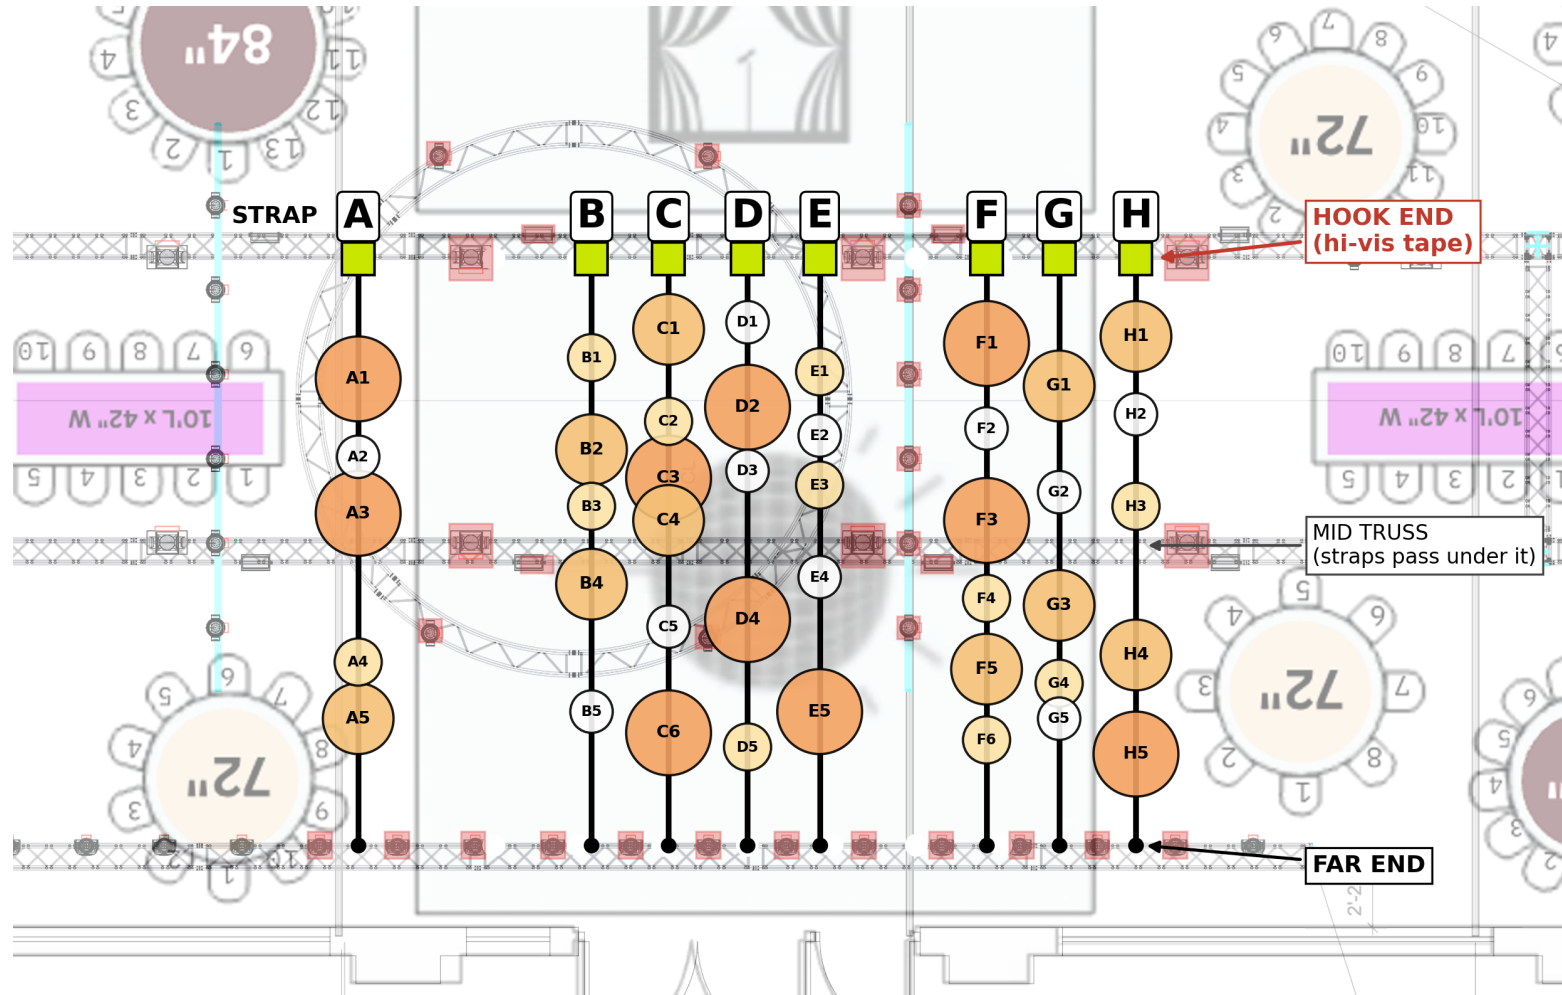

HOOK = ZERO. Hi-vis tape on the hook, marked "H".
Measure every MARK along the strap from the hook

ID	MARK from hook	CORD (strap to CENTER)	Lantern size (write on tag)	Marked	Cord tied	Length checked	Tagged
H1	33" (2' 9")	30"	30"				
H2	66" (5' 6")	69"	18"				
H3	105" (8' 9")	51"	20"				
H4	168" (14' 0")	60"	30"				
H5	210" (17' 6")	33"	36"				

VENUE PLAN: WHERE IT HANGS

Reference only.
Venue plan is not to scale

Hang the straps at these eight positions, not evenly spaced. Each position clears the lights on the truss (red) by at least 6 inches. The positions were measured from the lighting plot, so check each one against the real rig. If a light is in the way, slide the strap sideways or let that cord down a little. No strap goes within 30 inches of the pipe of lights.

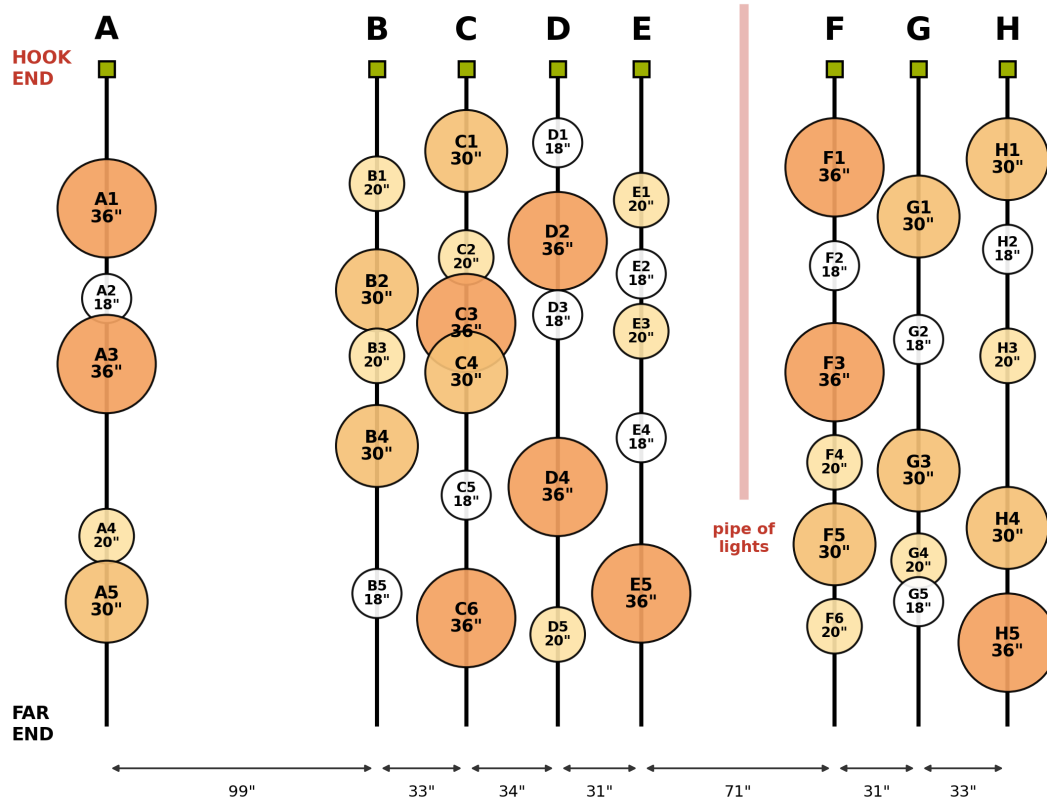

Strap	A	B	C	D	E	F	G	H
Distance from the pipe of lights	233" left	134" left	102" left	68" left	38" left	33" right	64" right	97" right
Gap to the next strap	99"	33"	34"	31"	71"	31"	33"	

Left and right are as you stand at the far end of the straps, facing the hooks and the stage.

ALL 8 STRAPS: TOP VIEW

Reference only. Build from the strap pages.

STAGE AND BAND THIS WAY

LANTERNS (stay packed until onsite)

Size	To hang	Spares	Total
36"	10	5	15
30"	10	5	15
20"	11	4	15
18"	11	4	15

READING THIS VIEW

- Each circle is one lantern, drawn to scale, with its ID and size.
- Same way up as the venue plan: hooks at the top, toward the stage.
- Straps hang in order A to H at the spacing shown, not evenly. The gap between A and B clears a moving head; the gap between E and F is for the pipe of lights.
- Circles that overlap hang at different heights.

ONSITE

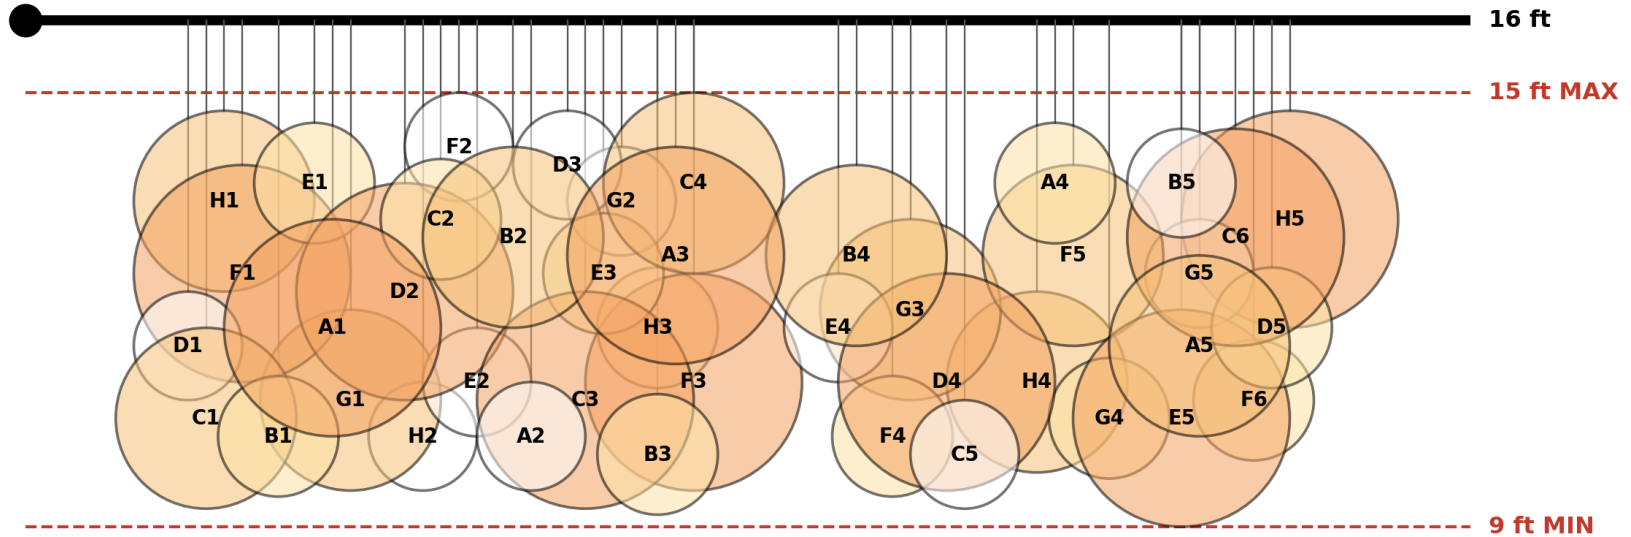

- Hang each strap at its position on the venue plan page, clear of the lights.
- Hang the lantern size written on each cord tag.
- Never swap sizes between positions. Replace a damaged lantern with a spare of the same size.
- If a light is in the way, slide the strap sideways or let that cord down a little. Keep every lantern bottom at least 9 ft off the floor, and keep lanterns from touching.
- Rip the hi-vis tape off the hooks once everything is installed.

OVERALL VIEWS + SIGN-OFF

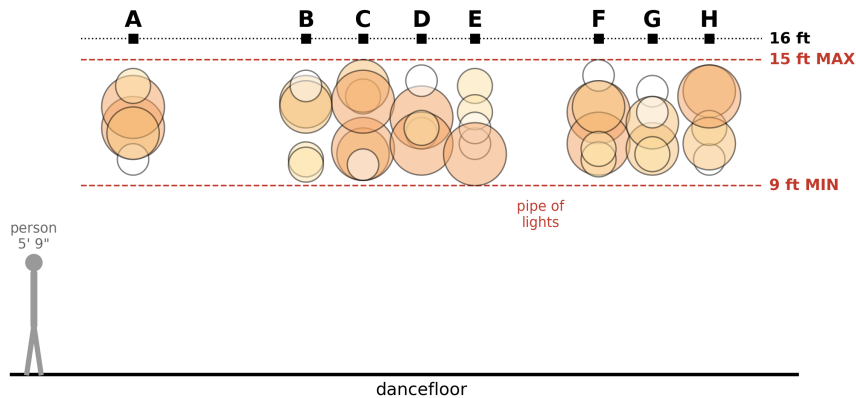

Reference only. Build from the strap pages.

SIDE VIEW: what the audience sees, all 8 straps overlaid

HOOK

END VIEW: looking along the straps from the far end toward the stage

SIGN-OFF BEFORE THE STRAPS LEAVE THE STUDIO
